## **Introduction**

### **Academy of educational planning and Management (AEPAM)**

The Academy of Educational Planning and Management (AEPAM) was established in 1982 mainly charged with the responsibilities of capacity building of educational planners and managers, consolidating and collating education statistics, maintaining comprehensive national database, and conduction policy research to facilitate preparation of educational policies.

### **National Educational Management Information System (NEMIS)**

National Educational Management System (NEMIS) has been functioning at AEPAM since 1993. Since its inception it was managed through project mode but recently has been shifted on recurring budget. The main purpose of NEMIS is to consolidate and collate education statistics, maintain comprehensive national education database, set standards for quality improvement of education data, and provide technical support tot the provincial and district EMISs for enhancing their capacity to generate and maintain data.

### **Data Compilation Mechanism**

The EMIS units are responsible for collection, compilation, analysis and dissemination of education statistics/data of their respective provinces/regions. These units usually collect data through their district EMIS cells by conduction annual school census. The provincial data is transmitted to NEMIS for consolidation at national level.

AEPAM plays a coordination role in addressing crucial issues and problems in respect of compatibility of questionnaires, statistical terminologies, data requirement for development of core educational indicators, discrepancy and inconsistency in data, data reliability and validity, non-availability of data of private schools and timely availability of data.

## Foreword

Education Statistics play a vital role in policy formulation, planning, implementation and monitoring of the education system. Realizing the importance of education statistics, the Academy of Educational Planning and Management (AEPAM) has been publishing the Annual National Education Statistics Reports since 1992-93. The report on Pakistan Education Statistics 2007-08 comprises educational data pertaining to all categories of educational institutions of both public and private sectors from pre-primary to tertiary levels. It also includes data in respect of professional, technical, vocational, non-formal, teacher-training institutions, non-formal basic education of public and private sectors as well as deeni madaris.

This report contains information regarding number of educational institutions, enrolment, teachers and physical facilities. The tabulation is disaggregated by gender and location of public and private educational institutions as well as by provinces/regions. The information given in the report reveals the trends and important milestones in the system as a whole and will be a catalyst in the process of setting goals and targets at micro and macro levels in planning and decision-making.

AEPAM is making efforts for the availability of reliable, and quality data on education. It has developed standard operating procedures and guidelines for data collection. It has already carried out validation studies to audit reliability of the information supplied by the EMISs/schools and result will be used to evaluate the quality of data. It has already initiated an Integrated Decision Support System (IDSS) project to develop a standardized data entry and reporting tool to strengthen EMIS units and improve the quality and usage of data. A number of training programs have been organized to educate educational managers on use of education statistics for improved decision making. These measures will help further in the improvement of the quality of data.

NEMIS team is grateful to Mr. Abdur Rauf Chaudhry, Federal Education Secretary, for his continued guidance and support to AEPAM and NEMIS. We would also like to extend our gratitude to Mr. [Pervez Iqbal](#), Joint Educational Advisor, P&P Wing, Ministry of Education, for his valuable support.

We are grateful for cooperation extended by Provincial/Regional EMIS coordinators of Punjab, Sindh, NWFP, Balochistan, AJK, FANA, FATA and ICT. We thank them for providing the provincial/regional consolidated data to AEPAM. The efforts made by the NEMIS professionals for processing the data and producing this report are also duly acknowledged.

**Prof. Dr. Haroona Jatoi**  
Director General

## Salient Features

There are 256,088 educational institutions of all categories in Pakistan, with a total enrollment of 37,462,884 students.

### Percentage Share of Public Sector and Private Sector

There are 182,477 (71%) education institutions in the public sector and 73,611 (29%) in private sector. Enrolment wise, public sector has an enrollment of 25,213,894 (67%) in various categories of educational institutions whereas 12,248,990 (33%) enrolment is in the private sector. The total teaching staff is 1,363,501, out of which 0.756 million (56%) is in the public sector and 0.606 million (44%) in the private sector.

### Gender-wise Enrollment and Teachers

The total male enrolment is 21.133 million (56%), whereas the total female enrolment is 16.329 million (44%). Out of the total 1,363 million teachers, 0.617 million (47%) are male and 0.695 million (53%) are female teachers.

### Category-wise Reporting of Educational Institutions (By Stage<sup>1</sup>, Sector and Gender)

Following is an overview of various categories of educational institutions with a focus on enrolment and teaching staff. These variables are discussed by sector, stage and gender wise segregation:

#### 1. Pre-primary:

The total enrolment at pre-primary stage is 7.402 million. Public sector has an enrollment of 4.610 million (62%), whereas the private sector has 2.792 million (38%) enrolment. Since there is no separate allocation of teachers to the pre-primary stage in the public sector, their number is not reported. Whereas the private sector has separate teachers for this stage and their number are 3,470 in the private sector.

#### 2. Primary:

Out of the total of 156,592 primary schools, 139,342 (89%) are in the public sector, whereas, 17,250 (11%) are in the private sector. The total enrolment at primary

<sup>1</sup> It is important to understand the difference between level and stage. Education institutions are categorized in terms of levels i.e. primary, middle, secondary, higher secondary etc. On the other hand the term "stage" refers to a particular grouping of classes i.e. we have primary (class 1-5), middle (classes 6-8), and similarly high, and higher secondary stages. In Pakistan, it is common to find institutions where enrollment of students includes those classes which are typically included in other levels. A middle school may include katchi, as well as classes 1-5, similarly a high school may have classes from katchi to class-8. Now if we go with enrollment based on level only it will give an inaccurate picture of enrollment.

For example we take the case of three schools in a particular area. Primary school 'A' has an enrollment of 500 students. Middle school 'B' has an enrollment of 600. High school 'C' has an enrollment of 800. In school 'B' there are 300 students from katchi to class-5. In school 'C' there are 200 students in classes katchi to class-5, and a further 200 students in classes 6-8. Now if we calculate enrollment based on level it would be 500 for primary level, 600 for middle level, and 800 for high level, which is unfortunately incorrect. On the other hand if we calculate enrollment based on stage we have 500 (of School 'A') + 200 (of School 'B') + 200 (of School 'C') = 900 students at **primary stage**, similarly there are 500 students at **middle stage**, and only 400 at **high stage**.

stage is 17.288 million, out of which 12.155 million (71%) is in public sector and 5.072 million (29%) is in private sector.

Gender wise, 9.692 million (56%) are boys and 7.535 million (44%) are girls. The total number of primary teachers are 435,351, of which 347,156 (80%) are in public sector, whereas, 88,195 (20%) are in private sector. The number of male primary school teachers is 233,299 (54%) and the number of female primary teachers is 202,052 (46%).

### **3. Middle:**

There are total 320,611 middle schools of which 121,052 (38%) are in public sector, whereas 199,259 (62%) are in private sector. The total enrolment at middle stage is 5.362 million, of which 3.694 million (69%) is in public sector, whereas, 1.668 million (31%) is in private sector. The total boys enrolment at middle stage is 3.106 million (58%), whereas, the girls enrolment is 2.256 million (42%). The total teachers at middle level are 320,611, out of which 121,352 (38%) is in public sector and 199,259 (62%) are in private sector. There are 112,375 (35%) male teacher and 208,236 (65%) are female teachers.

### **4. Secondary / High:**

There are total 23,964 high schools, of which 9,911 (41%) are in public sector, whereas 14,053 (59%) are in private sector. The total enrolment at high stage is 2.426 million, of which 1.723 million (71%) is in public sector, whereas, 0.702 million (29%) is in private sector. The total boys enrolment at high stage is 1.428 million (59%), whereas, the girls enrolment is 0.997 million (41%). The total teachers at high level are 374,252, out of which 175,159 (47%) is in public and 199,093 (53%) are in private sector. There are 167,252 (45%) male teacher and 207,000 (55%) are female teachers.

### **5. Higher Secondary / Inter Colleges:**

There are total 3,213 higher secondary schools/ inter colleges of which 1,299 (40%) are in public sector, whereas 1,914 (60%) are in private sector. The total enrolment at higher secondary schools/ inter colleges stage is 919,543 of which 750,552 (82%) is in public sector, whereas, 168,991 (18%) is in private sector. The total boys enrolment at higher secondary schools/ inter colleges stage is 457,443 (50%), whereas, the girls enrolment is 462,100 (50%). The total teachers at higher secondary schools/ inter colleges level are 74,223, out of which 33,229 (45%) is in public and 40,994 (55%) are in private sector. There are 38,061 (51%) male teacher and 36,162 (49%) are female teachers.
